

**Report relating to
Wall Magazine and Students Presentation organized by the
Department of Philosophy in collaboration with IQAC, P.R.Thakur
Govt. College**

Department of Philosophy in collaboration with IQAC, P R.Thakur Govt. College celebrated 138th Birth Anniversary of Dr. Sarvepalli Radhakrishnan. This celebration was done on 8th September, 2026 by organising publication of Wall Magazine and also by conducting Students Presentation. The programme started by the welcome address and speech given by HOD, Dr. Kanya Sen Gupta. She welcomed Officer-in-Charge, Dr. Swapan Sarkar, IQAC coordinator, Dr. Utpal Singha Roy, TCS, Dr. Rakibul SK and respected senior most Professor, Dr. Gaur Gopal Ray warmly. She also welcomed present teachers and students cordially. In her speech, she put forward some idea about the philosophy of Dr. Sarvepalli Radhakrishnan nicely. The inaugural session was enriched by the valuable key note address of IQAC coordinator as well as by the productive speech of TCS. Both of them wonderfully explained about Radhakrishnan. The presence of Dr. Gaur Gopal Ray also added a special value to the programme.

Dr. Radhakrishnan was born on 5th September, 1888. He wanted his birthday not to be celebrated personally but to be dedicated to honour all teachers. So his birthday is celebrated as Teachers' Day.

Radhakrishnan is a great teacher, philosopher and statesman. The essence of his philosophy is spiritualism. For him, religion makes man aware that man is not limited to his worldly existence. Beyond his worldly being, there is another higher aspect in him which is spirituality and this is his real nature. But religion, according to Radhakrishnan, is not an escape from the world. Rather religion helps to unify all persons of the world or society.

The programme on Radhakrishnan organized by the Philosophy Department was divided into two parts. The first part focussed on the publication of Wall Magazine. The current philosophy students of all semesters together with alumni prepared this Wall Magazine with whole hearted effort. The second part consisted of presentations by students. They highlighted beautifully different aspects of Radhakrishnan's philosophical views.

The entire programme has been guided pleasantly by teachers of Philosophy Department, Dr. Supriya Samanta and Dr. Pritha Paul. At the end, a touchy vote of thanks was given by another faculty member of the Department, Sucheta

Mitra.

On the whole, all who participated in the programme made it fruitful and beneficial. So we convey our heartfelt thanks to them.
